CAREER SUMMARY

Frontend developer with hands-on experience building responsive web applications using HTML, CSS, JavaScript, and React. Completed a 6-month full-stack coaching program and a frontend internship delivering production UI modules. Strong foundation in DOM manipulation, component-based design, and Git-based version control, with a track record of shipping and deploying real projects end to end.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML, CSS

Frontend: React (fundamentals), Responsive Web Design, DOM Manipulation, Vite

Tools & Platforms: Git, GitHub, GitHub Pages, VS Code

Other: Local Storage, RESTful concepts, Problem-Solving, Team Collaboration

WORK EXPERIENCE

Frontend Developer Intern — Archelos Technology Pvt Ltd, Bangalore

Feb 2026 – Jun 2026

- Built and shipped frontend pages — Login, Home, Product Export, Cafe Location, Contact, and Billing modules — using HTML, CSS, and JavaScript.
- Designed responsive layouts with consistent color systems and interactive UI components.
- Collaborated with the team on final project delivery and UI/UX refinement.

IT & Technical Support — Kaminemi Hospital

2022 – 2026

- Provided technical support to staff, troubleshooting software issues on billing and hospital management systems.
- Created and managed user accounts and login access for staff across hospital systems.
- Resolved network/LAN connectivity issues to maintain uninterrupted access to systems and records.
- Maintained data backups and ensured accuracy and integrity of patient and insurance records.
- Wrote and ran Python scripts to automate routine data-processing and reporting tasks.

PROJECTS

Brew Haven — Cafe Management Web Application

- Built a responsive cafe management app with Login, Home, Product Export, Cafe Location, Contact, and Billing features.
- Implemented dynamic buttons and interactive components using HTML, CSS, and JavaScript.

To-Do List Web Application

- Developed a task manager with add, edit, delete, and mark-complete functionality.
- Used Local Storage to persist tasks across sessions.

Python-Based Alarm Clock

- Built an interactive alarm clock with Tkinter, including alarm tones and snooze functionality.

Personal Portfolio Website

- Designed and deployed a personal portfolio using React and Vite, hosted on GitHub Pages.

EDUCATION

B.Sc. Computer Science — The Noble College, Krishna University

Intermediate (MPC) — Prasanna Junior College

Secondary Education — Z P High School, State Board of Secondary Education

CERTIFICATIONS & TRAINING
